

CSM Mounting Screws – Part # 410350 (4-pack)

The four screws that mount the Connex Spot Monitor (CSM) to the appropriate stand or wall mount come with the device itself, not with the mounting option. The part number for the pack of four screws is 410350. This is a no cost item in SAP, but it will work in an order (both plant 1000 & 1250) to send out as a replacement if a customer is missing these screws.
