

Due to Regulatory requirements, some of our User Manuals / DFUs contain statements referring to Electromagnetic Compatibility, Emissions and Immunity Information.

Note:

For information about electromagnetic compatibility (EMC), see the Welch Allyn website: www.welchallyn.com/emc-pocket
A printed copy of the emissions and immunity information can be ordered from Welch Allyn for delivery within 7 calendar days.

The statement directs the customer to a URL on the Welch Allyn website for an electronic version of the **EMC Compliance** information:

- For customers that request a hard copy of the EMC information who are not willing or able to get it from the website, please download and print the file from the EMC Compliance webpage, and mail it to the customer.
- You must verify the product the customer has, and get the correct URL from the User Manual for that product.
